SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled *o/DIES~2.jpg* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

This classification is because the computer image file presents a sexualised image of a naked woman.

The publication is a computer image file of a colour photograph. The photograph presents a naked woman posed in a sexually titillating manner.

In view of the sexualised presentation of female nudity, the Classification Office finds that the availability of the publication is likely to be injurious to the public good unless its viewing is restricted to an adult audience.

By virtue of the presentation of matters of sex, the Classification Office considers it a reasonable limit on freedom of expression as contained in the New Zealand Bill of Rights Act 1990, to place an age restriction on this publication.
